

# 電子健康紀錄互通系統

## Electronic Health Record Sharing System

現在，除了醫生、牙醫、護士和助產士外，另外六組於社區執業的醫護專業人員，包括物理治療師、職業治療師、醫務化驗師、放射技師、藥劑師及第I部分視光師，在取得病人的互通同意後，亦可逐步透過電子健康紀錄互通系統取覽<sup>1</sup>病人的電子健康紀錄。

In addition to doctors, dentists, nurses and midwives, 6 other groups of healthcare professionals (HCPs) working in the community, including physiotherapists, occupational therapists, medical laboratory technologists, radiographers, pharmacists and Part I optometrists, now can also access patients' electronic health records (eHRs) in phases<sup>1</sup> through the eHR Sharing System (eHRSS) after obtaining patients' consent.

如需要取覽屬特殊限制的電子健康紀錄，醫護專業人員需向你解釋原因及取得你的額外同意<sup>3</sup>，方可取覽有關紀錄

If HCPs need to access your eHRs which are under restricted control, they are required to explain the reason(s) and obtain your additional consent<sup>3</sup> before accessing these records

**立即登記醫健通，獲取電子健康紀錄互通帶來的好處！**  
 Join eHRSS now to benefit from electronic health record sharing!

**掃描參加**  
 Scan to Join

1. 其他專業組別將於稍後時間獲授權取覽電子健康紀錄  
 Access to eHRs by other groups of HCPs will be enabled at later stages

2. 按職能設定取覽限制是一個私隱保護機制，根據不同醫護專業人員的臨床需要及職能，預先設定不同的資料取覽權限  
 "Role-based Access Control" is a privacy protection feature which controls the data types that can be viewed by different types of HCPs taking into account their clinical needs and functions

3. 只適用於社區執業的醫護專業人員  
 Applicable to HCPs in the community only

**為你提供終身、更全面、適時與準確的電子健康紀錄**  
 Lifelong, More Comprehensive, Timely and Accurate Electronic Health Records for You
