

Form	Category 1	Entity Name	Entity ID	Definition	Data Type (code)	Data Type (description)	Validation Rule	Repeated Data	Code Table	Remark	Data Type in IAMS	Data requirement (Certified Level 1)	Example (Certified Level 1)
Clinical Note / Summary	Report period	Report start date	1003347	The start date of the period in which the clinical note/summary intended to cover. For example, this can be the admission date for inpatient episode.	TS	Time stamp					TS	M	09/12/2010
Clinical Note / Summary	Report period	Report end date	1003348	The end date of the period in which the clinical note/summary intended to cover. For example, this can be the discharge date for inpatient episode.	TS	Time stamp	Not earlier than the [Report start date]				TS	O	16/09/2010
Clinical Note / Summary		Referral number	1003486	A unique identifier issued by the healthcare institution who referred the healthcare recipient to the performing / visited institution. This number will be served as a part of the eReferral number for eReferral.	ST	String					ST	O	20150001
Clinical Note / Summary	Type of clinical setting	Type of clinical setting code	1003349	[eHR value] defined in "Type of clinical setting" code table. Type of clinical setting is the type of clinical service, e.g. inpatient, outpatient, under which the health record is created.	CE	Coded element			Type of clinical setting		S	M	IP
Clinical Note / Summary	Type of clinical setting	Type of clinical setting description	1003350	[eHR description] defined in "Type of clinical setting" code table, it should be the corresponding description of the selected [Type of clinical setting code]. Type of clinical setting is the type of clinical service, e.g. inpatient, outpatient, under which the health record is created.	ST	String			Type of clinical setting		ST	M	In-patient record
Clinical Note / Summary	Type of clinical setting	Type of clinical setting local description	1003351	The local description of the type of clinical setting which is the type of clinical service, e.g. inpatient, outpatient, under which the health record is created.	ST	String					ST	M	Hospitalisation record
Clinical Note / Summary	Clinical note / summary report	Report entity identifier	1006481	The [eHR value] defined in "Clinical report list" codex. A unique identifier issued by eHR ISO for indicating the specific kind of clinical notes / investigation reports sharing to eHRSS. This identifier will be used for facilitating reports searching or filtering in eHR viewer.	CE	Coded element			Clinical report list		S	M	102103
Clinical Note / Summary	Clinical note / summary report	Clinical note / summary report title	1003352	Report title of the clinical note / summary	ST	String					ST	M	Discharge summary
Clinical Note / Summary	Clinical note / summary report	Clinical note / summary report date	1003353	The documentation date of the clinical note / summary report. If this documentation date is not available, use the report creation date	TS	Time stamp					TS	O	01/02/2012
Clinical Note / Summary	Clinical note / summary report	Clinical note / summary report (PDF)	1003354	Clinical note / summary report in Portable Document Format (PDF)	ED	Encapsulated data					ED	M if [Clinical note / summary report (Text)] is blank	
Clinical Note / Summary	Clinical note / summary report	Clinical note / summary report (Text)	1003355	Clinical note / summary report in text format	TX	Text					TX	M if [Clinical note / summary report (PDF)] is blank	
Clinical Note / Summary		Clinical note / summary highlight	1003356	Summary of important information for the clinical note / summary, e.g. important findings	ST	String					ST	O	Fever for 1x
Clinical Note / Summary	Clinical Note / Summary	Clinical note / summary remark	1003357	The additional information about the clinical note / summary	TX	Text					TX	O	abc

**Type of clinical setting**

Purpose : To indicate type of clinical setting

Source : HA ePR

Term ID	eHR Value	eHR Description	Definition
9050002	AE	Accident and emergency record	Record generated during receiving care in Accident and Emergency Department
9050329	OP	Outpatient record	Record generated during out-patient attendance
9050198	IP	Inpatient record	Record generated during inpatient care
9050321	OTH	Other record	Record generated with unidentified healthcare service type is received

**Clinical report list**

Purpose : To list out the clinical records sharing to eHRSS clinical note/summary domain  
 Reference: from Information Architecture Management System (IAMS) Entity module
