  - ★ Recognised terminology

Form	Category 1	Category 2	Category 3	Category 4	Category 5	Category 6	Entity Name	Entity ID	Definition	Data Type (code)	Data Type (description)	Validation Rule	Repeated Data	Code Table	Remark	Data requirement (Certified Level 2)	Data requirement (Certified Level 3.1)	Data requirement (Certified Level 3.2)
Medication Prescribing Record							Prescription datetime	1003867	Datetime when the prescription was made	TS	Time stamp					M	M	M
Medication Prescribing Record	Prescription order	Prescribing institution					Prescribing institution identifier	1003852	[Healthcare institution identifier] in the eHR Healthcare Provider Index for the healthcare institution which issued the prescription order	CE	Coded element				Refer to Provider Registry	M if [Prescribing institution local name] is blank	M if [Prescribing institution local name] is blank	M if [Prescribing institution local name] is blank
Medication Prescribing Record	Prescription order	Prescribing institution					Prescribing institution long name	1003853	[Healthcare institution displayed English long name] or the [Healthcare institution displayed Chinese long name] in the eHR Healthcare Provider Index for the healthcare institution which issued the prescription order	ST	String	[Prescribing institution long name] should be the corresponding description of [Prescribing institution identifier] in the Provider Registry			Refer to Provider Registry	M if [Prescribing institution identifier] is given	M if [Prescribing institution identifier] is given	M if [Prescribing institution identifier] is given
Medication Prescribing Record	Prescription order	Prescribing institution					Prescribing institution local name	1003854	Local description of the healthcare provider by which the prescription order was made.	ST	String					M if [Prescribing institution identifier] is blank	M if [Prescribing institution identifier] is blank	M if [Prescribing institution identifier] is blank
Medication Prescribing Record	Prescription order						Prescription order number	1003855	A unique number assigned for each drug order issued by individual healthcare institution. One drug order would include multiple prescribed drugs.	ST	String				Refer to Provider Registry	O	O	O
Medication Prescribing Record	Prescriber						Prescriber's English full name	1003856	Full English name (with title) of the healthcare professional who prescribed the drug.	ST	String				Refer to Provider Registry	M if [Prescriber's Chinese full name] is blank	M if [Prescriber's Chinese full name] is blank	M if [Prescriber's Chinese full name] is blank
Medication Prescribing Record	Prescriber						Prescriber's Chinese full name	1003857	Full Chinese name (with title) of the healthcare professional who prescribed the drug.	ST	String				Refer to Provider Registry	M if [Prescriber's English full name] is blank	M if [Prescriber's English full name] is blank	M if [Prescriber's English full name] is blank
Medication Prescribing Record	Prescription detail						Prescribed drug sequence number	1005323	Sequence number of the prescribed drug	ST	String		Y			M	M	M
Medication Prescribing Record	Prescription detail	Prescribed drug	Prescribed drug - recognised terminology				Prescribed drug - recognised terminology name	1003868	Name of the recognised terminology for the prescribed drug	CE	Coded element	If eHR value = HKCTT, allowable nature is "Pharmaceutical product"; if eHR value = RPP, all record is allowed	Y	Recognised terminology name - pharmaceutical product		NA	M	M
Medication Prescribing Record	Prescription detail	Prescribed drug	Prescribed drug - recognised terminology				Prescribed drug identifier - recognised terminology	1003869	Unique identifier of the prescribed drug in the recognised terminology	CE	Coded element	[Prescribed drug identifier - recognised terminology] should be included in the selected recognised terminology of the "Recognised terminology name - pharmaceutical product" code table	Y			NA	M	M
Medication Prescribing Record	Prescription detail	Prescribed drug	Prescribed drug - recognised terminology				Prescribed drug description - recognised terminology	1003870	Description of the prescribed drug in recognised terminology. It should be the corresponding description of the selected [Prescribed drug identifier - recognised terminology].	CE	Coded element	[Prescribed drug description - recognised terminology] should be the corresponding description of [Prescribed drug identifier - recognised terminology] in the selected recognised terminology	Y			NA	M	M
Medication Prescribing Record	Prescription detail	Prescribed drug	Prescribed drug - local terminology				Prescribed drug code - local terminology	1003871	Local code of the prescribed drug developed by the healthcare provider	ST	String		Y			O	O	O
Medication Prescribing Record	Prescription detail	Prescribed drug	Prescribed drug - local terminology				Prescribed drug description - local terminology	1003872	Local description of the prescribed drug developed by the healthcare provider	ST	String		Y			M	M	M
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction					Prescribed drug dose instruction (combined text)	1003873	The entire combined dose instruction information of an ordered drug; the syntax should contain the following information of the prescription order: 1. route of administration, 2. dose, 3. frequency, and 4. duration of treatment or treatment start and end date	ST	String		Y			M	M	M
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components				Prescribed drug dose instruction sequence number	1005253	Sequence number of the prescribed drug dose instruction	NM	numeric		Y			NA	NA	M if [Dose instruction conjunction description] is given N/A if [Dose instruction conjunction description] is blank
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Prescribed drug dose components			Prescribed drug dose value sequence number	1005254	Sequence number of the prescribed drug dose value	NM	numeric		Y			NA	NA	M if [Dose value conjunction description] is given N/A if [Dose value conjunction description] is blank
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Prescribed drug dose components	Prescribed dose		Prescribed drug dose value	1005255	The numeric value of the prescribed drug dose unit	NM	numeric		Y			NA	NA	M if [Prescribed dose unit code] is given N/A if [Prescribed dose unit code] is blank
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Prescribed drug dose components	Prescribed dose	Prescribed dose unit	Prescribed drug dose unit code	1005256	[eHR value] of the "Prescribed drug dose unit" code table for identifying the prescribed drug dose unit	CE	Coded element		Y	Prescribed drug dose unit		NA	NA	M if [Prescribed drug dose value] is given N/A if [Prescribed drug dose value] is blank

Form	Category 1	Category 2	Category 3	Category 4	Category 5	Category 6	Entity Name	Entity ID	Definition	Data Type (code)	Data Type (description)	Validation Rule	Repeated Data	Code Table	Remark	Data requirement (Certified Level 2)	Data requirement (Certified Level 3.1)	Data requirement (Certified Level 3.2)
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Prescribed drug dose components	Prescribed dose	Prescribed dose unit	Prescribed drug dose unit description	1005257	[eHR description] of the "Prescribed drug dose unit" code table for identifying the prescribed drug dose unit. It is the corresponding description of the selected [Prescribed drug dose unit code].	ST	String		Y	Prescribed drug dose unit		NA	NA	M if [Prescribed drug dose unit code] is given N/A if [Prescribed drug dose unit code] is blank
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Prescribed drug dose components	Prescribed dose	Prescribed dose unit	Prescribed drug dose unit local description	1005258	Local description of the prescribed drug dose unit developed by the healthcare provider	ST	String		Y			NA	NA	M if [Prescribed drug dose unit code] is given N/A if [Prescribed drug dose unit code] is blank
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Prescribed drug dose components	Frequency		Prescribed drug frequency code	1005259	[eHR value] of the "Drug - frequency" code table for identifying the prescribed drug dose frequency	CE	Coded element		Y	Drug - frequency		NA	NA	M
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Prescribed drug dose components	Frequency		Prescribed drug frequency description	1005260	[eHR description] of the "Drug - frequency" code table for identifying the prescribed drug dose frequency. t is the corresponding description of the selected [Prescribed drug frequency code].	ST	String		Y	Drug - frequency		NA	NA	M
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Prescribed drug dose components	Frequency		Prescribed drug frequency local description	1005261	Local description of the prescribed drug frequency developed by the healthcare provider	ST	String		Y			NA	NA	M
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Prescribed drug dose components	Supplementary frequency		Prescribed drug supplementary frequency code	1005262	[eHR value] of the "Drug - supplementary frequency" code table for identifying the prescribed drug supplementary frequency	CE	Coded element		Y	Drug - supplementary Frequency		NA	NA	M if [Prescribed drug supplementary frequency description] is given N/A if [Prescribed drug supplementary frequency description] is blank
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Prescribed drug dose components	Supplementary frequency		Prescribed drug supplementary frequency description	1005263	[eHR description] of the "Drug - supplementary frequency" code table for identifying the prescribed drug supplementary frequency. It is the corresponding description of the selected [Drug - supplementary frequency code].	ST	String		Y	Drug - supplementary Frequency		NA	NA	M if [Prescribed drug supplementary frequency code] is given N/A if [Prescribed drug supplementary frequency code] is blank
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Prescribed drug dose components	Supplementary frequency		Prescribed drug supplementary frequency local description	1005264	Local description of the prescribed drug supplementary frequency developed by the healthcare provider	ST	String		Y			NA	NA	M if [Prescribed drug supplementary frequency code] is given N/A if [Prescribed drug supplementary frequency code] is blank
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Prescribed drug dose components			Prescribed drug frequency additional information	1005265	Local description of the prescribed drug frequency additional information provided by the healthcare provider which cannot be catered with prescribed drug daily frequency nor supplementary frequency	ST	String		Y			NA	NA	O
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Prescribed drug dose components			Prescribed drug PRN indicator	1005266	An indicator for PRN indication if the prescribed medication order is indicated for use on an as needed basis	CE	Coded element		Y	Yes No		NA	NA	O
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Prescribed drug dose components	Dose value conjunction		Prescribed drug dose value conjunction code	1005267	[eHR value] of the "Drug - conjunction" code table for identifying the prescribed drug dose value conjunction	CE	Coded element		Y	Drug - conjunction		NA	NA	M if [Prescribed drug dose value conjunction description] is given N/A if [Prescribed drug dose value conjunction description] is blank
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Prescribed drug dose components	Dose value conjunction		Prescribed drug dose value conjunction description	1005268	[eHR description] of the "Drug - conjunction" code table for identifying the prescribed drug dose value conjunction. It is the corresponding description of the selected [Drug - conjunction code].	ST	String		Y	Drug - conjunction		NA	NA	M if [Prescribed drug dose value conjunction code] is given N/A if [Prescribed drug dose value conjunction code] is blank
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Prescribed drug dose components	Dose value conjunction		Prescribed drug dose value conjunction local description	1005269	Local description of the prescribed drug dose value conjunction developed by the healthcare provider	ST	String		Y			NA	NA	M if [Prescribed drug dose value conjunction code] is given N/A if [Prescribed drug dose value conjunction code] is blank
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Route of medication administration			Prescribed route of medication administration code	1005270	[eHR value] of the "Route of medication administration" code table for identifying the prescribed route of medication administration	CE	Coded element		Y	Route of medication administration		NA	NA	M
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Route of medication administration			Prescribed route of medication administration description	1005271	[eHR description] of the "Route of medication administration" code table for identifying the prescribed route of medication administration. It is the corresponding description of the selected [Route of medication administration code].	ST	String		Y	Route of medication administration		NA	NA	M

Form	Category 1	Category 2	Category 3	Category 4	Category 5	Category 6	Entity Name	Entity ID	Definition	Data Type (code)	Data Type (description)	Validation Rule	Repeated Data	Code Table	Remark	Data requirement (Certified Level 2)	Data requirement (Certified Level 3.1)	Data requirement (Certified Level 3.2)
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Route of medication administration			Prescribed route of medication administration local description	1005272	Local description of the prescribed route of medication administration developed by the healthcare provider	ST	String		Y			NA	NA	M
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Site of medication administration			Prescribed site of medication administration code	1005273	[eHR value] of the "Site of medication administration" code table for identifying the prescribed site of medication administration	CE	Coded element		Y	Site of medication administration		NA	NA	M if [Prescribed site of medication administration description] is given N/A if [Prescribed site of medication administration description] is blank
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Site of medication administration			Prescribed site of medication administration description	1005274	[eHR description] of the "Site of medication administration" code table for identifying the prescribed site of medication administration. It is the corresponding description of the selected [Site of medication administration code].	ST	String		Y	Site of medication administration		NA	NA	M if [Prescribed site of medication administration code] is given N/A if [Prescribed site of medication administration code] is blank
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Site of medication administration			Prescribed site of medication administration local description	1005275	Local description of the prescribed site of medication administration developed by the healthcare provider	ST	String		Y			NA	NA	M if [Prescribed site of medication administration code] is given N/A if [Prescribed site of medication administration code] is blank
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Duration			Prescribed drug duration value	1005276	The numeric value of the prescribed drug duration	NM	numeric		Y			NA	NA	M
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Duration	Prescribed drug duration unit		Prescribed drug duration unit code	1005277	[eHR value] of the "Drug - duration unit" code table for identifying the prescribed drug duration unit	CE	Coded element		Y	Drug - duration unit		NA	NA	M
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Duration	Prescribed drug duration unit		Prescribed drug duration unit description	1005278	[eHR description] of the "Drug - duration unit" code table for identifying the prescribed drug duration unit. It is the corresponding description of the selected [Drug - duration unit code].	ST	String		Y	Drug - duration unit		NA	NA	M
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Duration	Prescribed drug duration unit		Prescribed drug duration unit local description	1005279	Local description of the prescribed drug duration unit developed by the healthcare provider	ST	String		Y			NA	NA	M
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Dose instruction conjunction			Prescribed drug dose instruction conjunction code	1005280	[eHR value] of the "Drug - conjunction" code table for identifying the prescribed drug dose instruction conjunction	CE	Coded element		Y	Drug - conjunction		NA	NA	M if [Prescribed drug dose instruction conjunction description] is given N/A if [Prescribed drug dose instruction conjunction description] is blank
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Dose instruction conjunction			Prescribed drug dose instruction conjunction description	1005281	[eHR description] of the "Drug - conjunction" code table for identifying the prescribed drug dose instruction conjunction. It is the corresponding description of the selected [Drug - conjunction code].	ST	String		Y	Drug - conjunction		NA	NA	M if [Prescribed drug dose instruction conjunction code] is given N/A if [Prescribed drug dose instruction conjunction code] is blank
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Dose instruction conjunction			Prescribed drug dose instruction conjunction local description	1005282	Local description of the prescribed drug multiple line conjunction developed by the healthcare provider	ST	String		Y			NA	NA	M if [Prescribed drug dose instruction conjunction code] is given N/A if [Prescribed drug dose instruction conjunction code] is blank
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Prescribed drug quantity			Prescribed drug quantity value	1005283	The numeric value of the prescribed drug quantity unit	NM	numeric		Y			NA	NA	M if [Prescribed drug quantity unit code] is given N/A if [Prescribed drug quantity unit code] is blank
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Prescribed drug quantity	Prescribed drug quantity unit		Prescribed drug quantity unit code	1005284	[eHR value] of the "Prescribed drug quantity unit" code table for identifying the prescribed drug quantity unit	CE	Coded element		Y			NA	NA	M if [Prescribed drug quantity value] is given N/A if [Prescribed drug quantity value] is blank
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Prescribed drug quantity	Prescribed drug quantity unit		Prescribed drug quantity unit description	1005285	[eHR description] of the "Prescribed drug quantity unit" code table for identifying the prescribed drug quantity unit. It is the corresponding description of the selected [Prescribed drug quantity unit code].	ST	String		Y	Prescribed drug quantity unit		NA	NA	M if [Prescribed drug quantity unit code] is given N/A if [Prescribed drug quantity unit code] is blank

Form	Category 1	Category 2	Category 3	Category 4	Category 5	Category 6	Entity Name	Entity ID	Definition	Data Type (code)	Data Type (description)	Validation Rule	Repeated Data	Code Table	Remark	Data requirement (Certified Level 2)	Data requirement (Certified Level 3.1)	Data requirement (Certified Level 3.2)
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components	Prescribed drug quantity	Prescribed drug quantity unit		Prescribed drug quantity unit local description	1005286	Local description of the prescribed drug quantity unit developed by the healthcare provider	ST	String		Y	Prescribed drug quantity unit		NA	NA	M if [Prescribed drug quantity unit code] is given N/A if [Prescribed drug quantity unit code] is blank
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction	Prescribed drug dose instruction components				Prescribed drug treatment start date	1005287	Treatment start date as specified by the drug prescriber	TS	Time stamp		Y			NA	O	O
Medication Prescribing Record	Prescription detail	Prescribed drug dose instruction					Special instruction for prescription order	1003874	Additional information relating to the use of the prescribed drug	ST	String		Y			O	O	O
Medication Prescribing Record	Prescription detail	Medication discontinuation					Prescribed medication discontinuation status	1006221	Medication discontinuation is a remark information of a prescribed medication record provided by a healthcare provider indicating the reason, date and by whom the medication is discontinued. Prescribed medication discontinuation status is an indicator for prescribed medication discontinuation status to indicate if the prescribed medication is discontinued.	CE	Coded element		Y	Yes	A remark information of a prescribed medication record provided by a healthcare provider indicating the reason, date and by whom the medication is discontinued.	O	O	O
Medication Prescribing Record	Prescription detail	Medication discontinuation					Prescribed medication discontinuation information	1006222	Additional information relating to the discontinuation of the prescribed drug; prescribed medication discontinuation information may contain any discontinuation reason(s), annotation, or remarks related to the discontinuation of the prescribed medication.	ST	String					O	O	O
Medication Prescribing Record	Prescription detail	Medication discontinuation	Institution discontinuing the medication				Prescribed medication discontinuing institution identifier	1006223	[Healthcare institution identifier] in the eHR Healthcare Provider Index for the healthcare institution which discontinued the prescribed medication.	CE	Coded element					M if [Prescribed medication discontinuation status] is Yes; N/A if [Prescribed medication discontinuation status] is null	M if [Prescribed medication discontinuation status] is Yes; N/A if [Prescribed medication discontinuation status] is null	M if [Prescribed medication discontinuation status] is Yes; N/A if [Prescribed medication discontinuation status] is null
Medication Prescribing Record	Prescription detail	Medication discontinuation	Institution discontinuing the medication				Prescribed medication discontinuing institution long name	1006224	[Healthcare institution displayed English long name] or the [Healthcare institution displayed Chinese long name] in the eHR Healthcare Provider Index for the healthcare institution which issued the discontinued the prescribed medication.	ST	String	[Medication discontinuing institution long name] should be the corresponding description of [Medication discontinuing institution identifier] in the Provider Registry			Refer to Provider Registry	M if [Prescribed medication discontinuation status] is Yes; N/A if [Prescribed medication discontinuation status] is null	M if [Prescribed medication discontinuation status] is Yes; N/A if [Prescribed medication discontinuation status] is null	M if [Prescribed medication discontinuation status] is Yes; N/A if [Prescribed medication discontinuation status] is null
Medication Prescribing Record	Prescription detail	Medication discontinuation	Institution discontinuing the medication				Prescribed medication discontinuing institution local name	1006225	Local description of the healthcare provider by which the prescribed medication is discontinued.	ST	String					M if [Prescribed medication discontinuation status] is Yes; N/A if [Prescribed medication discontinuation status] is null	M if [Prescribed medication discontinuation status] is Yes; N/A if [Prescribed medication discontinuation status] is null	M if [Prescribed medication discontinuation status] is Yes; N/A if [Prescribed medication discontinuation status] is null
Medication Prescribing Record	Prescription detail	Medication discontinuation	Prescriber discontinuing the medication				Prescribed medication discontinuing prescriber's English full name	1006226	Full English name (with title) of the healthcare professional who discontinued the prescribed medication.	ST	String				Refer to Provider Registry	M if [Prescribed medication discontinuation status] is Yes, and [Prescribed medication discontinuing prescriber's Chinese full name] is blank; N/A if [Prescribed medication discontinuation status] is null	M if [Prescribed medication discontinuation status] is Yes, and [Prescribed medication discontinuing prescriber's Chinese full name] is blank; N/A if [Prescribed medication discontinuation status] is null	M if [Prescribed medication discontinuation status] is Yes, and [Prescribed medication discontinuing prescriber's Chinese full name] is blank; N/A if [Prescribed medication discontinuation status] is null
Medication Prescribing Record	Prescription detail	Medication discontinuation	Prescriber discontinuing the medication				Prescribed medication discontinuing prescriber's Chinese full name	1006227	Full Chinese name (with title) of the healthcare professional who discontinued the prescribed medication.	ST	String				Refer to Provider Registry	M if [Prescribed medication discontinuation status] is Yes, and [Prescribed medication discontinuing prescriber's English full name] is blank; N/A if [Prescribed medication discontinuation status] is null	M if [Prescribed medication discontinuation status] is Yes, and [Prescribed medication discontinuing prescriber's English full name] is blank; N/A if [Prescribed medication discontinuation status] is null	M if [Prescribed medication discontinuation status] is Yes, and [Prescribed medication discontinuing prescriber's English full name] is blank; N/A if [Prescribed medication discontinuation status] is null
Medication Prescribing Record	Prescription detail	Medication discontinuation					Date of prescribed medication discontinuation	1006228	The date on which the prescribed medication is marked as discontinued.	TS	Time stamp					M if [Prescribed medication discontinuation status] is Yes; N/A if [Prescribed medication discontinuation status] is null	M if [Prescribed medication discontinuation status] is Yes; N/A if [Prescribed medication discontinuation status] is null	M if [Prescribed medication discontinuation status] is Yes; N/A if [Prescribed medication discontinuation status] is null

**Recognised terminology name - pharmaceutical product**

Purpose: To define the names of the recognised terminology for pharmaceutical product

Term ID	eHR Value	eHR Description	Allowable Values
