

Terms of Use for the Hong Kong Clinical Terminology Table (“HKCTT”)

1. HKCTT is a standardised clinical terminology table which is developed with a view to supporting the share and access of information with the Electronic Health Record Sharing System (“eHRSS”) in the Hong Kong SAR.
2. HKCTT is a proprietary work. Besides works belonging to the Government and/or the Hospital Authority (“HA”)(“we” or “us”), HKCTT may contain mapped codes or identifiers to certain third party standards, classifications and terminologies (“Third Party Terminologies”) as described in the list below.
3. The list of Third Party Terminologies and the related notices or terms as may be applicable may change from time to time. Such changes will be posted on the website www.ehealth.gov.hk and/or included in a file contained within the relevant version of HKCTT, or made available in any other way as we may consider appropriate. You should check out for any such changes each time before you use HKCTT, and your continued use of HKCTT will mean you have consented to such changes.
4. If you wish to access Third Party Terminologies (other than the mapped codes or identifiers included in HKCTT), you should contact the eHR Information Standards Office. Your access to and/or use of Third Party Terminologies may be subject to further terms and conditions and you must also comply with any applicable terms as may be imposed by such third parties such as subscribing or joining as their affiliates or members.
5. To the extent that HKCTT is embedded within or provided together with any computer programs or modules that are licensed to you by us, your use of HKCTT is subject to the terms applicable to such licenses in addition to these terms.
6. Unless you have obtained the prior written consent from us, you must use HKCTT only for your internal or personal purposes for the collection, compilation, analysis, research, mapping and/or reporting of clinical terminology data within the Hong Kong SAR, in relation to healthcare services (e.g. supporting clinical documentation, preparation for data for sharing with eHRSS, supporting interoperability of eHRSS), healthcare administration (e.g. data reporting, healthcare planning and evaluation, reimbursement) or healthcare development (e.g. teaching and research).
7. You must not, nor permit or procure any third party to, deal with any intellectual

property in respect of HKCTT (including the names “Hong Kong Clinical Terminology Table” and “HKCTT”) in any form or manner, such as to reproduce, sell, distribute, make available, communicate, sub-license, adapt, modify, alter, reverse-engineer, create derivative work in relation to HKCTT or any part of it.

8. We do not warrant that HKCTT, Third Party Terminologies, or any part of them:
 - (a) is up-to-date, error-free, accurate or complete or will achieve any results intended by you;
 - (b) will be compatible with your IT systems, hardware and/or software;
 - (c) will always be available or operate without interruption, error or virus infection.
9. You acknowledge and agree that any liability to you and/or your patients, partners, staff, agents or sub-contractors for any loss or damage suffered in relation to the use of HKCTT (other than death or personal injury resulting from negligence) is disclaimed by us to the fullest extent permissible by law. All conditions, warranties or other terms which might be implied by law, are excluded to the fullest extent permissible, including but not limited to, any implied warranties as to title, quality, fitness for purpose or the use of reasonable skill and care in respect of the design, creation, compilation or revision of HKCTT.
10. Any reference made to HKCTT shall, unless specified, include all its versions, updates and fixes (if any) that may be provided or made available to you from time to time. To enhance consistency with the standardised clinical terminologies, we encourage you to adopt the latest versions, updates and fixes of HKCTT available. Without prejudice to Clause 9, as from the date a new version, update or fix is provided or made available, whether or not you install or incorporate the same, we shall not be liable for any loss or damage howsoever caused from the continual use of any previous version or any version without our update or fix.
11. (a) Either party may terminate the use of HKCTT by giving to the other 30 days' prior written notice.
 - (b) We may terminate your use of HKCTT immediately on written notice to you if:
 - (i) you are in breach of any of these terms (or any terms applicable to Third Party Terminologies or the computer programs or modules that are

licensed to you by us) and fail to remedy the breach (if capable of remedy) within 14 days of the date of written notice from us informing you of the breach; or

- (ii) you transfer your business or enter into partnership with others, or you suspend or cease, or threaten to cease, to carry on your business.
- (c) When the use of HKCTT terminates:
- (i) you must cease using HKCTT; and
 - (ii) you must follow the unwind procedures as instructed by us including removing all soft copies of HKCTT from your IT systems.
