

Management of Healthcare Staff Index

[G68]

Version 1.5

July 2024

The Government of the Hong Kong Special Administrative Region

Intellectual Property Rights Notice

Notice for Public Use Documents

© [2014] by the Government of the Hong Kong Special Administrative Region

1. Unless otherwise indicated, all content in this publication, including but not limited to all texts, graphics, drawings, diagrams, photographs, compilation of data or other materials (“the Works”) is subject to intellectual property rights protection. The intellectual property rights in such Works are either owned by the Government of the Hong Kong Special Administrative Region (“the Government”) or licensed to the Government by the intellectual property rights owner(s) of the Works.
2. Where the Government is the owner of the intellectual property right in a Work, you may reproduce and distribute the Work in any format or medium, provided that the following conditions are met –
 - (a) the particular Work has not been specifically indicated to be excluded from the general permission given under this Intellectual Property Rights Notice in respect of reproduction or distribution of the Works;
 - (b) the copy or copies must not be made for sale;
 - (c) the Work must be reproduced accurately and must not be used in a misleading context or in a manner adversely affecting any moral rights of the Government; and
 - (d) the copies must give proper attribution to the Government and reproduce this Intellectual Property Rights Notice.
3. The Government reserves the right to withdraw any permission given in clause 2 above at any time without any prior notice to you.
4. Prior written consent of the Government is required if you intend to reproduce, distribute or otherwise use the Work in any way or for any purpose other than that permitted in clause 2 above. Requests for permission should be addressed to the eHealth Record Office of the Health Bureau at 19/F, East Wing, Central Government Offices, 2 Tim Mei Avenue, Tamar, Hong Kong.
5. For the avoidance of doubt, the permission in clause 2 above does not extend to intellectual property rights which do not belong to the Government. Permission should be obtained from the relevant third party intellectual property rights owners in respect of reproduction, distribution or otherwise use of their Works.

Disclaimer

1. This document is compiled by the Government, and eHR Project Management Office (“eHR PMO”) of the Hospital Authority which is the technical agency for the eHR Sharing System.
2. The information provided in this document is for reference or general information only.
3. While the Government endeavors to ensure the accuracy of the information in this document, no express or implied warranty is given by the Government as to the accuracy of the information. The Government will **NOT** be liable for any errors in, omissions from, or misstatements or misrepresentations (whether express or implied) concerning any such information, and will not have or accept any liability, obligation or responsibility whatsoever for any loss, destruction or damage (including without limitation consequential loss, destruction or damage) however arising from or in respect of any use or misuse of or reliance on the information in this document or inability to use it.
4. This document may contain materials contributed by other parties over whom, and in respect of which, the Government may have no influence. Provision of, or assistance in providing, materials contributed by third parties in this document gives rise to no statement, representation or warranty, express or implied, that the Government agrees or does not disagree with the contents of any such materials and the Government will not have or accept any liability, obligation or responsibility whatsoever for any loss, destruction or damage (including without limitation consequential loss, destruction or damage) however arising from or in respect of any use or misuse of or reliance on the contents of any such materials or inability to use any of them.
5. The Government is not responsible for any loss or damage whatsoever arising out of or in connection with any information in this document. The Government reserves the right to omit, suspend or edit all information compiled by the Government at any time in its absolute discretion without giving any reason or prior notice. Users are responsible for making their own assessment of all information contained in this document and are advised to verify such information by making reference, for example, to original publications and obtaining independent advice before acting upon it.
6. This Disclaimer has been translated into Chinese. If there is any inconsistency or ambiguity between the English version and the Chinese version, the English version shall prevail.
7. This Disclaimer may be revised and/or amended from time to time by the Government

without prior notice to you.

Readers of this document

This guide is to be read by colleagues who are working in

1. Commissioner for the Electronic Health Record
2. eHR Registration Office
3. eHR Healthcare Providers
4. eHR Information Standards Office

In particular, colleagues who are responsible for

1. administration of eHR Healthcare Staff Index (HCSI)
2. maintenance of HCSI data
3. handling registration of healthcare staff
4. any healthcare management process that is related to HCSI data or its data quality

1 INTRODUCTION

- 1.1. The Healthcare Staff Index (HCSI) is a listing of the personal identification record of healthcare staff (HCS) who take part in the Electronic Health Record Sharing System (eHRSS). For healthcare professionals, information on professional qualification is also included.
- 1.2. HCSI serves as a foundation for identification and authentication of HCS who work under the Healthcare Provider (HCP) and are required to access to eHRSS.
- 1.3. HCSI is administered by the Commissioner for the Electronic Health Record (eHRC) with the operation support of Electronic Health Record Registration Office (eHR RO) and HCPs. Maintaining HCSI accuracy is the responsibility of all eHR stakeholders, including eHRC, eHR RO, HCPs and HCS.
- 1.4. The data of a HCS is captured through Electronic Health Record Sign-on and Access Management System (eHR SAM) upon the registration of HCS to eHRSS by HCP.
- 1.5. The standard operation on registration of HCS is crucial to the data integrity of HCSI and security of eHRSS. This document introduces the data content of HCSI and provides general principles in maintaining and improving the quality of HCSI. These principles are applied to HCS registration and the subsequent updates of HCSI.

2 HEALTHCARE STAFF INDEX (HCSI) PRINCIPLES

2.1 UNIQUE RECORD AND IDENTIFICATION OF HEALTHCARE STAFF

- 2.1.1 eHRC maintains a unique HCSI to identify individual HCS and his / her role at the HCP for stratified levels of access to the eHRSS.
- 2.1.2 Once a HCS registers to the eHR, HCSI will issue a unique identifier to that particular HCS. Each HCS should have only one record in eHRSS.
- 2.1.3 HCS will be re-assigned with the previous identifier if he / she has left and then re-registers the eHRSS subsequently.

2.2 ACCURATE HEALTHCARE STAFF INFORMATION

- 2.2.1 HCP should ensure her staffs' records are up-to-date and accurate to prevent unauthorised access to eHRSS. Whenever there is any change to information of HCS, especially the personal particulars, communication means or professional registration information, HCP should update the record in HCSI accordingly. Please refer to Section 4 for details.
- 2.2.2 The healthcare staff data can be updated by eHR RO, HCP, and HCS respectively as appropriate.

2.3 SUPPORT ROLE BASED ACCESS IN eHRSS

- 2.3.1 To ensure that healthcare recipients' eHR records is accessed by HCS under the 'need-to-know' basis, a role-based access control with pre-defined differentiated access rights set in accordance with the clinical need or function of different healthcare professionals is implemented in eHRSS.

- 2.3.2 To support the implementation of role-based access, there are two types of HCS in the HCSI.
- 2.3.3 The healthcare administrative / ancillary staff is responsible for eHR registration of healthcare recipient or related functions in eHRSS, such as activation of eHR account and handling the giving of sharing consent of healthcare recipient.
- 2.3.4 The healthcare professional involving in the delivery of care for healthcare recipients is able to access the health data of the healthcare recipients in the eHRSS on the need-to-know basis as decided by HCP. One should be registered under respective professional board or council supported by the Department of Health in the HKSAR.

2.4 VALID PROFESSIONAL STATUS OF HEALTHCARE PROFESSIONAL

- 2.4.1 To ensure that only authorised healthcare professionals can access the healthcare recipient's eHR record, the professional registration status of healthcare professionals will be validated upon eHR HCS registration and / or change of any information (Please refer to Section 4.2 for details).
- 2.4.2 The eHR HCS registration for healthcare professional will only be completed after the validation check is successful.

2.5 RELATIONSHIP OF HEALTHCARE STAFF AND HEALTHCARE PROVIDER(S)

- 2.5.1 To ensure a HCS is under a HCP in eHRSS, a relationship between HCS and his / her HCP should be kept in eHRSS.
- 2.5.2 When a HCP registered a HCS, a 'Prime' relationship is established between the HCP and the HCS. As long as the HCS participates in eHR sharing, the 'Prime' relationship should remain established for his / her access to eHRSS.

- 2.5.3 The HCP with 'Prime' relationship is responsible to maintain the accuracy of the HCS's account in HCSL.
- 2.5.4 If the HCS works at two or more HCPs and requires to access eHRSS under both HCPs, in addition to the existing 'Prime' relationship, an 'affiliate' relationship can be established by the affiliate HCP.
- 2.5.5 When the HCS does not have any relationship with any HCPs, e.g. the HCS no longer works at any HCPs, his / her access to eHRSS will be terminated.
- 2.5.6 Details of change in relationships between HCS and his 'Prime' HCP or 'affiliate' HCPs can be referred to the Code of Practice for information.

3 HEALTHCARE STAFF INDEX (HCSI) DATA

3.1 INTRODUCTION TO HCSI DATA

3.1.1 Each HCS record in HCSI includes the follow categories of information:

3.1.1.1 HCS identifier,

3.1.1.2 Type of HCS,

3.1.1.3 Personal information, including HCS identity and HCS contact,

3.1.1.4 Information on professional registration (for healthcare professionals), and

3.1.1.5 Other HCS information.

3.1.2 See Annex for the details of HCSI data.

3.2 HEALTHCARE STAFF IDENTIFIER

3.2.1 The HCS identifier is a unique identifier being assigned to each HCS for registration in eHRSS.

3.2.2 It is a number automatically generated and assigned to HCS by eHR SAM.

3.2.3 The eHR SAM will NOT re-assign the same HCS identifier to another HCS.

3.2.4 HCP should keep the HCS identifier of her HCS who has been registered in eHRSS to facilitate the identification and authentication of the HCS.

3.3 TYPE OF HEALTHCARE STAFF

3.3.1 There are two types of HCS in eHRSS, namely healthcare administrative / ancillary staff and healthcare professional in HCSI.

3.3.2 Healthcare professional should provide the corresponding professional registration information, with relevant supporting document(s) as appropriate, for validity check against the Common Professional List (CPL) upon registration to eHRSS. CPL is a

central database in eHRSS platform which contains professional registration information of healthcare practitioners who have registered in various healthcare professional boards and / or councils at HKSAR. Please refer to Section 3.6 for details.

3.4 HEALTHCARE STAFF IDENTITY

3.4.1 Introduction to Healthcare Staff Identity

3.4.1.1 HCS identity is comprised of the following data to uniquely identify a HCS :

- (a) HCS English name, including surname and given name
- (b) HCS Hong Kong Identity Card (HKIC) number (for HKIC holder)
- (c) HCS identity document type (for non-HKIC holder)
- (d) HCS identity document number (for non-HKIC holder)

3.4.1.2 Other data related to HCS identity includes:

- (a) HCS identity document issuing country/region
- (b) HCS Chinese name
- (c) HCS English and Chinese title
- (d) HCS user name

3.4.2 Healthcare Staff English Name

3.4.2.1 The English name includes the surname and given name of the person in English as indicated on the person's identity / travel document.

3.4.2.2 In HKIC, the convention of displaying the bearer's name is that the surname is displayed first, followed by a comma, then the given name.

3.4.2.3 The name typed into the system should correspond to the one on the **identity document**, including the spelling and the spacing. If the identity document indicates the patient's surname is Szeto, DO NOT type Sze To.

- 3.4.2.4 HCSI will store the surname and given name in two separate data fields as [Healthcare Staff English Surname] and [Healthcare Staff English Given Name]. For example, if the identity / travel document indicates the name of the HCS is 'Chan, Sau Mui', input 'Chan' in the [Healthcare Staff English Surname] field and 'Sau Mui' in the [Healthcare Staff English Given Name] field.
- 3.4.2.5 Do NOT add any remarks after the name of HCS if it is not on the HCS's identity document.

3.4.3 Healthcare Staff HKIC Number

- 3.4.3.1 HKIC number is the HKIC bearer's number printed on the HKIC, include the check digit.
- 3.4.3.2 The 'Code of Practice on the Identity Card Number and Other Personal Identifiers' issued by Office of the Privacy Commissioner for Personal Data recognises the importance of and provides guidance on collecting a person's HKIC number to identify an individual and one's account in eHRSS.
- 3.4.3.3 The format of HKIC number includes alphabetic prefix with 1 or 2 digit(s), six numeric digits and a check digit. The system will validate the HKIC number against the check digit to avoid possible typing mistake.
- 3.4.3.4 To facilitate future reference, a standardised format is adopted when entering [HKIC number]:
- (a) Enter the character / number as indicated on the person's HKIC and the character / number in the brackets accordingly. The brackets are not required when entering the [HKIC number].
- 3.4.3.5 eHR SAM will use the HKIC number of the HCS for checking the professional registration of healthcare professional with the relevant registration board or council. Please refer to Section 3.6 for details.

3.4.4 Healthcare Staff Identity Document Type

3.4.4.1 Identity document type refers to the type of identity / travel document of the HCS presented for eHR registration, update of identity information, or other personal information, and etc.

3.4.4.2 Always register the HCS with one's HKIC. If the HCS does not possess a HKIC, register him / her with an identity / travel document.

3.4.5 Healthcare Staff Identity Document Number

3.4.5.1 The identity document number is the number indicated in the identity / travel document of the HCS presented for eHR registration, update of identity or other personal information, and etc. This does not include the HKIC number.

3.4.5.2 It is captured under [Healthcare Staff Identity Document Number].

3.4.5.3 There are circumstances that the HCS may renew the identity / travel document which gives a new identity / travel document number. HCS should present the old / expired identity / travel document that was previously used for registration for checking and verification by HCP and / or eHRC as far as possible.

3.4.6 Healthcare Staff Identity Document Issuing Country / Region

3.4.6.1 The identity document issuing country / region refers to the issuing country / region of the identity / travel document HCS presented for eHR registration. This does not apply to HKIC.

3.4.6.2 It should correspond to the [Type of identity document] and [Identity document number] of HCS.

3.4.7 Healthcare Staff Chinese Name

3.4.7.1 Chinese name is the full name of HCS in Chinese as indicated on HCS's identity / travel document, if any.

3.4.7.2 The Chinese surname and given name are captured together under [Healthcare Staff Chinese Name].

3.4.7.3 The eHRSS adopts the ISO / IEC 10646 as the Chinese characters standards. The eHR SAM can only display Chinese characters that have the corresponding ISO / IEC 10646 code.

3.4.7.4 The system supports the use of simplified Chinese characters. For HCS presenting identity / travel document with the name written in simplified Chinese characters, enter HCS's name according to the presented document.

3.4.7.5 If the system cannot produce any one of the Chinese characters, leave the whole Chinese name blank to avoid confusion.

3.4.7.6 Do NOT add any remarks after the name of HCS if it is not indicated in HCS's identity / travel document.

3.4.8 Healthcare Staff English Title and Chinese Title

3.4.8.1 The English title is a prefix preceding the English name of HCS and the Chinese title is a suffix after HCS's Chinese name for addressing that HCS, e.g. Doctor and Professor.

3.4.9 Healthcare Staff User Name

3.4.9.1 It is the unique user name of HCS issued by eHRSS for accessing to the healthcare recipient's eHR record.

3.5 HEALTHCARE STAFF CONTACT

3.5.1 Communication Means

3.5.1.1 Communication means refers to the means for HCS to receive eHR communication.

3.5.1.2 eHRSS requires to contact HCS for administration purposes, e.g.

(a) advising HCS about his / her account information, e.g. account log-in information and account status,

(b) notifying HCS about changes on his / her personal information, and

- (c) informing HCS about changes on his / her relationship with the healthcare provider(s).

3.5.1.3 HCS can select a desirable communication means to receive information related to eHR administration, including

- (a) by SMS, or
- (b) by email.

3.5.2 Healthcare Staff Mobile Phone Number and Internet Email Address

3.5.2.1 The purpose of recording HCS's mobile phone number and / or internet email address is to facilitate the eHRSS to communicate with HCS for administration purposes.

3.6 INFORMATION ON PROFESSIONAL REGISTRATION

3.6.1 Introduction to Healthcare Professional Registration

3.6.1.1 The information of healthcare professional registration is only applicable to the healthcare professionals. It is not applied to the Healthcare administrative or ancillary staff.

3.6.1.2 To ensure that only authorised healthcare professionals can access the healthcare recipient's eHR record, their professional registrations will be verified against CPL, please refer to Section 3.3.2.

3.6.1.3 The following data of the healthcare professional will be passed from eHRSS to CPL to ascertain the validity of professional registration of the healthcare professional:

- (a) English name,
- (b) HKIC number, and
- (c) professional registration number.

- 3.6.1.4 The healthcare professional who does not possess a valid professional registration is not allowed to access the healthcare recipient's eHR record.

3.6.2 Healthcare Professional Category Name

- 3.6.2.1 This is professional category of the healthcare professional as defined by the eHRSS, e.g. registered medical practitioner, registered nurse, etc.
- 3.6.2.2 The eHR professional category of the healthcare professional should correspond to the registration board or council who issued the professional registration to the respective healthcare professional.

3.6.3 Healthcare Professional Registration Board or Council

- 3.6.3.1 Registration board / registration council is a body responsible for the registration of the respective healthcare professionals and related issues.
- 3.6.3.2 The name of registration board or council under the legislation of the HKSAR is captured under [Healthcare Professional Registration Board or Council].

3.6.4 Healthcare Professional Registration Number

- 3.6.4.1 Healthcare professional registration number is the registration number of the healthcare professional issued by respective professional boards or councils under legislation of the HKSAR.
- 3.6.4.2 Healthcare professional is required to provide his / her professional registration number for verification on one's professional registration status at HKSAR.

3.6.5 Healthcare Professional Registration Status

- 3.6.5.1 It indicates the latest professional registration status of the healthcare professionals at the corresponding registration board or council.
- 3.6.5.2 This status will be updated according to the information provided by the registration board or council as appropriate.

- 3.6.5.3 Healthcare professional who does not possess a valid professional registration status is not allowed to access the healthcare recipient's eHR record.

3.7 OTHER HEALTHCARE STAFF INFORMATION

- 3.7.1 Certain HCS data is collected for account creation in eHRSS, e.g. user name, administrative institution, details of e-Certificate, etc, as appropriate.

4 MANAGEMENT OF HEALTHCARE STAFF INDEX

4.1 INTRODUCTION

- 4.1.1 Maintaining an accurate and updated HCSI will facilitate the identification and authentication of HCS who wishes to access eHRSS.

4.2 UPDATE PERSONAL DATA

- 4.2.1 There are circumstances that HCS's personal data has been changed, updating HCSI is necessary.
- 4.2.2 The personal data of HCS in HCSI can only be updated by HCP who has a 'Prime' relationship with HCS. If HCS wants to update one's information in HCSI, he / she may contact his / her 'Prime HCP'.
- 4.2.3 HCP with 'Prime' relationship with HCS is responsible for updating HCSI and maintaining the data accuracy.
- 4.2.4 The personal data of HCS in HCSI should not be changed casually. Any updates on HCS personal data in HCSI should be supported by relevant supporting document(s) as appropriate for future reference.

4.3 UPDATE PROFESSIONAL REGISTRATION INFORMATION

- 4.3.1. To ensure only authorised healthcare professionals with valid professional registration can access to eHRSS, any changes in professional registration information, for example change of professional category from dentist to medical practitioner, will automatically trigger a validation check with CPL for authentication. The changes will take effect only after CPL ascertains the validity of the new registration status.

4.4 UPDATE OTHER INFORMATION

- 4.4.1. To prevent un-authorised access to healthcare recipient's eHR record, HCS's records in HCSI should be accurate and up-to-date.

4.4.2. Whenever there are any changes of information relating to HCS, especially the change in role and employment status of HCS in HCP, HCS record in HCSI should be updated accordingly, for example:

4.4.2.1 when the role / duty of HCS is changed, e.g. type of HCS is changed from healthcare professional to healthcare administrative staff or vice versa.

4.4.2.2 when a HCS no longer works at a HCP, the HCP should terminate the relationship with HCS in HCSI.

4.4.3. If the update of HCSI involves the changes on the type of HCS in eHRSS (i.e. role of HCS in the HCP), the stratified levels of access to eHRSS will be changed; if the update of HCSI involves the establishment or termination on the relationship with HCP(s), the access to eHRSS will be granted or ceased respectively.

4.5 CONTINUOUS ASSESSMENT

4.5.1 Reasonable steps should be taken to ensure the accuracy of HCSI, for examples

4.5.1.1 maintains the completeness and correctness of HCSI records, and

4.5.1.2 monitor the changes in any personal data and / or professional registration.

4.5.2 Timely actions should be taken upon:

4.5.2.1 any changes in any personal data, and

4.5.2.2 any changes in professional registration.

5 SUMMARY

- 5.1 To ensure the authorised access to eHRSS, HCSI should be accurate and up-to-date to identify and authenticate HCS.
- 5.2 HCS information captured in eHR SAM should correspond to the one on HCS's identity / travel document.
- 5.3 HCSI provides essential HCS information to support a two-tier control mechanism (at the HCP level and eHRSS level) in eHRSS. This ensures the healthcare recipient's eHR is only accessible by the healthcare professionals delivering care to them.
 - 5.3.1 HCP level: The role-based access control in eHRSS ensures HCS accessing the healthcare recipient's eHR record in a 'need-to-know' basis.
 - 5.3.2 eHRSS level: Professional registration status of healthcare professionals is authenticated and validated against the CPL in eHRSS to support the role-based access control.

APPENDIX A – HEALTHCARE STAFF DATASET

Entity Name	Definition	Data Type	Code Table	Data requirement (Certified Level 3)
Healthcare staff identifier	A unique identifier assigned by eHR Healthcare Staff Index to each healthcare staff for participation in the eHR Sharing System	String	-	M
Type of healthcare staff	[eHR value] of the "Type of healthcare staff" code table which is used to identify the type of healthcare staff under the eHR Healthcare Staff Index	Coded Element	Type of healthcare staff	M
Personal information (including HCS identity and HCS contact)				
Healthcare staff HKIC number	Hong Kong Identity Card number of the healthcare staff	String	-	M if [Healthcare staff identity document number] is blank
Healthcare staff identity document type	[eHR value] of the "Type of identity document for healthcare staff enrolment" code table which is used to identify the type of identity / travel document the healthcare staff presented for eHR enrolment	Coded Element	Type of identity document for healthcare staff enrolment	M
Healthcare staff identity document number	The number of the identity / travel document the healthcare staff presented to enrolment other than HKIC number	String	-	M if [Healthcare staff HKIC number] is blank
Healthcare staff identity document issuing country / region	[eHR value] of the "Country/region" code table which is used to identify the type of identity / travel document the healthcare staff presented for eHR enrolment	Coded Element	Country/region	M, and If [healthcare staff identity document type] is ID, [Country/region] must be 'HK'.
Healthcare staff English title	[eHR value] of the "Title" code table, a prefix preceding the eHR healthcare staff's English name for addressing that healthcare staff	Coded Element	English Title	O
Healthcare staff Chinese title	[eHR value] of the "Chinese title" code table, a suffix after the eHR healthcare staff's Chinese name for addressing that healthcare staff	Coded Element	Chinese title	O
Healthcare staff English surname	English surname of the healthcare staff as indicated on the identity / travel document	String	-	M
Healthcare staff English given name	English given name of the healthcare staff as indicated on the identity / travel document	String	-	O

MANAGEMENT OF HEALTHCARE STAFF INDEX

Entity Name	Definition	Data Type	Code Table	Data requirement (Certified Level 3)
Healthcare staff Chinese name	Chinese name of the healthcare staff as indicated on the identity / travel document	String	-	O
Communication means	[eHR value] of the "Communication means for eHR healthcare staff " code table, to indicate the route for receiving the communication	Coded Element	Communication means for eHR healthcare staff	M
Healthcare staff mobile phone number	Mobile phone number of the healthcare staff	String	-	M if [Communication means] is 'SMS'
Healthcare staff internet email address	Email address of the healthcare staff	String	-	M if [Communication means] is 'EM'
Information on professional registration (for healthcare professionals)				
Healthcare professional category name	[eHR value] of the "Professional category " code table which is to identify the name of the eHR professional category of the healthcare professional	Coded Element	Professional category	M if [Type of healthcare staff] is 'Prof'
Healthcare professional registration board or council	[eHR value] of the "Registration board" code table which is to identify the name of registration board or council under the HKSAR legislation	Coded Element	Registration board	M if [Type of healthcare staff] is 'Prof'
Healthcare professional registration number	The registration number of the Healthcare professional issued by statutory boards or councils under HKSAR legislation.	String		M if [Type of healthcare staff] is 'Prof'
Healthcare professional registration status	[eHR value] of the "Healthcare professional registration status" code table. It is used to indicate the latest validity of the professional registration status of the Healthcare professional in the corresponding professional board or council	Coded Element	Healthcare professional registration status	M
Other HCS information				
Healthcare staff user name	A unique staff user name provided by healthcare staff for logging in the eHR Sharing System	String	-	M
Administrative institution	[Healthcare institution identifier] in the Healthcare Provider Index for the healthcare institution who created the healthcare staff account	String	-	M

MANAGEMENT OF HEALTHCARE STAFF INDEX

Entity Name	Definition	Data Type	Code Table	Data requirement (Certified Level 3)
Second authentication factor	[eHR value] of the "Second authentication factor" code table which is used to identify the type of second authentication factor assigned to the healthcare staff for accessing in the eHR Sharing System, if needed	Coded Element	Second authentication factor	O
Healthcare staff English surname in e-Cert	English surname of healthcare staff in e-Cert which is a digit certificate issued by recognised certification authority for identification for conducting online transactions.	String	-	M if [Second authentication factor] is 'e-Cert USB'.
Healthcare staff English given name in e-Cert	English given name of healthcare staff in e-Cert which is a digit certificate issued by recognised certification authority for identification for conducting online transactions.	String	-	M if [Second authentication factor] is 'e-Cert USB'.
Email address in e-Cert	Email address of healthcare staff in e-Cert which is a digit certificate issued by recognised certification authority for identification for conducting online transactions.	String	-	O
Subscriber reference number of e-Cert	A unique number of e-Cert assigned by recognised certification authority for the healthcare staff.	String	-	M if [Second authentication factor] is 'e-Cert USB'.
Healthcare staff account effective date	The date the healthcare staff is created with an eHR healthcare staff account for access to the eHR Sharing System	Time stamp		M
Healthcare staff account inactive date	The date the healthcare staff account is inactivated H56 the eHR Sharing System	Time stamp		O
